Michael Bob Starr

Executive Director, Global Samaritan

WHAT CAN I DO TO GET MY FAMILY MORE INVOLVED IN THE COMMUNITY?

- Volunteer and Donate!

Help by donating, sorting and preparing items for shipments all over the world.

- Hurricane Disaster Relief

Provide funds for desperately needed help in communities affected by hurricanes

- 20/20 Campaign (Monthly Giving)

- One Time Gift

These donations will go toward the many life-changing efforts we are involved in every day.

Global Samaritan began in 1999 with a very simple mission: Collect surplus goods and share them with people in need. We started in the back of a truck. Today we have shipped goods to people in need in more than 30 countries on five continents.

Global Samaritan has provided millions of US Dollars of humanitarian aid, water purification and disaster relief. We have partnered directly with thousands of people worldwide. Global Samaritan Resources has been a 501(c)3 Texas Corporation since 2006.

Today we have a 55,000 square foot warehouse in Abilene, Texas filled by families, individuals, businesses, corporations, schools and churches who donate out of their surplus.

In addition to shipping the goods we collect, we store and arrange shipments for mission teams, churches and other organizations that bring their goods to our warehouse. We handle all the logistics. What does logistics mean? It is the management of getting goods from their point of origin to their place of destination. But when logistics is receiving, storing, and shipping material for people in need, "logistics" means hope.

WHO CAN I CONTACT FOR MORE INFO?

WHAT WE DO

At Global Samaritan we collect surplus goods of all kinds: medical and school supplies, tools and equipment, household goods, furniture and more. We provide the logistics for storage, staging and shipment of the goods we collect and goods collected by other partners.

Water Purification

In many countries, lack of pure water is the primary reason people are unable to rise out of poverty. Women and children often spend six hours or more each day fetching water for their families and communities. But there is help and hope! Water purification kits from Global Samaritan can bring water to any thirsty community.

Shipping Surplus Goods

Our 55,000 square foot warehouse in Abilene, Texas is filled by families, individuals, businesses, corporations, schools and churches who donate out of their surplus. From these generous donors we receive a variety of both new and used goods that we then find a need for in other areas of the world.

Disaster Relief

When disaster strikes people close to home or halfway around the globe, one individual can make a big difference. Global Samaritan is here to help.
