## WHAT CAN I DO TO GET MY FAMILY MORE INVOLVED IN CRISIS MINISTRY?

- **Contact Bernie and let him know the specific way in which your family could be involved, and what specific gifts you have that would be helpful (construction, painting, etc.).**
- **Watch for disasters that happen (floods, fires, hurricanes, tornadoes, etc) and be ready to volunteer and/or donate money and time as needed.**
- **Contact the Church of Christ disaster relief at <http://disasterrelieffort.org/> and sign up to help for future disasters.**

The crisis ministry provides for the physical needs of people or families during stressful times of any type of crisis or natural disaster where basic necessities have been lost. This need may be served by providing food and drink, clothing, shelter, basic household furniture, or other services as needed by each situation. This ministry collects and stores items that may be distributed as well as maintains lists of persons that may have equipment or talents that may be accessed as opportunities for service arise.

Our purpose is to provide opportunities for people to share in the joy of giving and provide for the needs of others. These times are used to minister to persons in a much broader way than physical needs being provided. It is a time to experience the blessing of seeing the true joy of Christ by being a servant to others as He came to serve all men.
